(1) General Control not comparable with subsequent years because of change in classification of accounts.

(2) This amount could not be distributed among items of current expenditures for the reason that prior to 1929-30 present classification of accounts was not in use.

(3) Prior to 1933-34 disbursements from Support and Maintenance Funds, District Interest and Sinking Funds, and District Bond Construction Funds were not reported separately.

(4) Since 1937-38 accounts of funds for the Support and Maintenance of Schools have been on an accrual basis. EXPENDITURES for 1937-38 represent actual payments made during the year from funds for the support and maintenance of schools, plus unpaid obligations incurred during the year amounting to \$323,670.43 (vouchers unpaid), plus current loans unpaid \$300,000. Thus disbursements from funds for the support and maintenance of schools for 1937-38 were approximately \$875,000 less than the recorded expenditures for that year. The 1937-38 disbursements for the support and maintenance of schools were, therefore, approximately \$19,998,000—or nearly \$307,000 less than the disbursements from the support and maintenance funds during 1938-1937.

(5) Does not include other items such as Purchase of Investments, Liquid Investments, Frozen Balances, Transfers, etc., after 1937-38.

(6) Unreconciled difference—Receipts and Expenditures.

18-Year Average, Grades 1-6: Cost \$191,508.15; Enrollment 249,057; Cost per Pupil \$0.77.

Differences in the reported cost per pupil in preceding biennial reports were occasioned by differences in the bases for computation. Some of the per pupil cost figures were based upon net distribution. The per pupil cost figures in this report are based solely upon actual book purchases. Cost per pupil for high school books in 1935-36 previously reported in error as \$5.40.
